Enforcement of Ship Ban Halted  
Till Oct. 17

CASE UP IN COURT THEN

Matter is Discussed at Pres-  
ident's Cabinet Meeting

The matter of the enforcement of the ship ban was discussed at the President's cabinet meeting today. The cabinet members were divided on the issue, with some favoring immediate enforcement and others favoring a delay until the matter could be taken to court. The President ultimately decided to postpone enforcement until October 17, at which time the matter will be brought before the courts.

The cabinet meeting was held in the White House and was attended by the President and his top advisors. The discussion centered on the recent decision by the Supreme Court regarding the ship ban, and the various arguments for and against enforcement.

The President's decision to delay enforcement was seen as a pragmatic move, allowing time for the legal process to unfold. It was also noted that the cabinet members were concerned about the potential economic impact of the ban.

The matter is expected to be a major topic of discussion in the coming weeks, as the legal challenges to the ship ban continue to be resolved.

The ship ban has been a controversial issue since its implementation, with many arguing that it is an overreach of executive power. The current decision to delay enforcement adds to the uncertainty surrounding the ban.

The ship ban is a key component of the President's policy on international trade, and its enforcement will have significant implications for the economy.

## His Conception of Most Good Money Can Do

### FAITH IN SELF LIMITLESS

#### Friend's Estimate of Manufacturer Given by Forbes

(By B. C. FORBES)  
NEW YORK — (Special) — Said Henry Ford's most intimate friends to me the other day: "Henry's more stubborn than a mule. Once he gets an idea into his head no power on earth can drive it out no matter how fantastic an idea it may be. Those of us who are his closest friends are the ones who most regret some of the ill-divided stunts Henry has been mixed into doing."

Then, he added: "But, I want you to understand that Henry is one of the most lovable of men. His mistakes spring usually from a terrible lack of education, lack of knowledge of history, ignorance of everything outside the making of automobiles. He has views of his own about how he should use his money. He has never given in for giving away money, as so many men not as wealthy as

he have done. His conception is that the money he makes can do most good if it is employed to build more plants and thus give work, at good wages, to larger and larger numbers of men. He believes that the greatest thing any man can do for another is to afford him opportunity for remunerative employment. He is very strong on this point.

"This explains why he is constantly expanding his operations on a scale that now staggers the whole earth. His ambition is to go on and on branching out. There is no limit to what he believes he can accomplish—with the aid, I should add, of his son, Edsel, who, his father feels, is a genius."

For's conception of what constitutes the most useful, the most successful life's work reminds me of a thought-stirring session I had with one of our foremost financiers, a man who rose from the ranks and who, altho he worked tremendously hard, never lost touch with the finer things of life and who sometime ago threw off most of his business burdens in order to have time to do worthwhile things for his fellow mortals.

Here is his definition of what is most worth while:

"A man can leave no better monument than an organization, an establishment, conducted on honorable lines and giving employment to hundreds or thousands of his fellow men at wages which enable them to live happily. To create such a business, to build it up, stone upon stone, to invest it with all the elements of stability so that it will endure—that is worth going. To supply men with reasonably profitable employment, to give them the means of rearing families in decency and comfort—that is

something one can look back upon without regret.

"Or take railroad building. To supply a country in need of transportation with a good railroad and have the pleasure of watching the people prosper as a result of your efforts—that is one of the grandest achievements I know. You can thus add to the sum total of human happiness. You cause two blades of grass to grow where only one grew before. You aid the development of the country along legitimate lines. You build a monument more enviable than one of marble, useless, unproductive. Any work well done, any thing worthy into which you throw yourself, gives satisfaction of the right kind. In olden days a man would make a goblet of exquisite beauty and he would love it. Today there can be just as much romance in planning and erecting, say, an electric power station which sends out its wonderful miracle-working current to turn the world's wheels. The smooth operation of the plant, its infinite capabilities, the beautiful symmetry of its machinery, its usefulness—all these can appeal to a man's soul. The man who builds such a plant has created something, and there is no joy equalling that of creation."

"What part does money-making play in a multi-millionaire's life?" I asked.

"At first it is important—it is necessary. You naturally want a home for your family and enough money to insure that you will not be turned out of it. After that you need money to play the game, so to speak. You want, of course, to get into the blue chip class.

"Then when you have made all you can possibly need for the ordinary means of life, money-making be-

comes a mere matter of bookkeeping. You can't eat it. You cannot drink it. You cannot wear it. You cannot carry it about with you. You watch whether you are gaining or losing as the state of your bank account tells you whether you are utilizing your energies intelligently or whether you are going backward.

"But money is only an incidental it is your work that counts. Your plans absorb your attention. Achieve merit, not money, yields satisfaction. And let me add that a tremendous change has taken place in the conscience of our so-called successful men. Twenty years ago things were done that would not be dreamed of today. And you, these things were not then regarded as wrong; it was simply that little regard was paid to the ethics or the influence of certain acts. The evolution—or regeneration, if you want to call it that—has not been brought about by fear. No, not by fear. There has been an impressive awakening of conscience—yes, that is the only way I can describe it. It is especially very especially marked in the case of the younger generation of our men of affairs. They are more punctilious concerning the collateral effects of their actions. The rights and the interests of other people are more jealously regarded and respected.

"In short, a sharper line is now

drawn between the things that are worth while and the things that can mean only money."

### WOMEN AND MEDICINE

In Europe, years ago, a woman named Hildegarde wrote a notable book on medicinal plants. In those days the men were too busy bothering about dogmas of religion and medicine, and the study of herbs was thought beneath their notice.

It was the women, however, who mostly conducted the hospitals and cared for the sick, and thus they learned much of great value. They told the men about the questions of theories.

Lydia E. Pinkham's Vegetable Compound, prepared almost fifty years ago by a woman, Lydia E. Pinkham, did then, and does now, relieve the ailments peculiar to women. It is a vegetable compound and of great value for this purpose. This is proven day after day, and in your neighborhood, by grateful women who have used it.—Adv.

## TAXATION IS HIT BY DONAHAY

Candidate Exposes G. O. P. Policies, at Spencerville

OUTLINES STATE PLATFORM

Makes Six Pledges to People if Chosen Executive

(BY EARL J. FISHER)

Declaring himself to restore equilibrium in the state by shouldering the burden of promoting six wise policies and making good the keynote of his administration, Vice Donahay, Democratic candidate for governor, lunged the gauntlet of his party into the ring at Spencerville Thursday afternoon before a big crowd that braved the chill of Co. K. army.

The gubernatorial candidate arrived in Lima with William D. Fulton, Democratic candidate for secretary of state and Forest Smith, defeated candidate for attorney general in the August primary. The party was accompanied by Spencerville by a score of Allen-co. candidates and Lima citizens. Enthusiasm of the party platform was enthusiastically received.

As the preparation of an address based on solid facts, during which Donahay urged economy, sane policies in state government, and the ending of the bull that has run thru governmental departments like the proverbial bovine of China shop fame, he pledged himself to the following if elected:

### PLEDGES MADE

(1)—Reduce indirect taxes.  
(2)—Enforce laws without fear or favor.  
(3)—Uphold the integrity of the workmen's compensation law.  
(4)—Break the struggle hold which unscrupulous interests have on the state highway commission.  
(5)—See that each of the 88 counties in the state receive a fair deal with respect to road improvement.

(6)—Abolish the public utilities commission if it fails to function in the purposes for which it was created.

Economy was the keynote thru out the Donahay address. In introducing the candidate, Fulton and Thomas Berry, former state senator from this district, gave him his cue.

Fulton pointed to the fact that during the campaign, Donahay's opponent in the race, spent \$25,000 to secure the nomination—\$5,000 more than he could receive for receiving one term as governor—while Donahay expended but a mere pittance.

Donahay submitted to the assembly what he believed the dominant issue of the campaign—the question whether wages are common again with the cost of living and with the energy expended in toil.

An emphatic "no" was given by the candidate as an answer. Excessive taxation is the reason, he said. In 1918 the Democratic administration had the state tax rate reduced to .45 of a mill, but when the Republicans went into office a year later the rate was increased and is still increasing until now it is more than

four mills. Property which cost \$4.50 in 1913 will cost \$41.50 in 1928, according to Donahay.

### DEFENDS FARMER

The farmer and homeowner were defended by the candidate in his plea for ferreting out intangible property, which, he claims, is equal to tangible property yet pays only 25 per cent while the other 75 per cent is borne mainly by the large class for which life is a hand to mouth proposition.

"Whether you approve classification at the next election or retain the uniform rule, you will still be paying the same, but if intangible property were placed on the general duplicate of \$11,500,000,000 it would be doubled," he declared.

"Indirect taxation—meaning those levies made by the federal and state governments on 'rents', excises, special business, including even undertakings—is insidious. If it continues the farmer will eventually be taxed for being a farmer. It would be better to take off these duties than exempting vast amounts of intangible property," Donahay said.

Exemption of \$24,000,000 was bonds was given as one of the reasons why other forms of taxation have become excessive.

Ohio collected \$30,000,000 in indirect taxes last year. There has not been a recent legislature that has not clamped on more. The average person in the United States is paying \$1.00 per year in this way.

"If people in general would be acquainted with these facts, I fear there would be a revolution," the candidate said.

"Excessive taxation is blighting this country—in the same way it dragged other once proud nations in the mire. While speaking in Beloit recently the chairman of the meeting, more as a joke than anything, presented me with 2,500,000 Russian rubles—once a great sum—but today could purchase only a bushel of Allen-co wheat because it has deteriorated thru the same processes that are undermining our country."

### STATE HAS HUGE DEBT

"Our state has a debt of \$615,000,000. Do you know what that means? Concrete, y. it means that it would require 1,500,000 wagon loads of wheat to pay for it, and, more im-

portant! It is a burden that we must impose, with shame upon the future generation if we do not liquidate it ourselves. Time is short! Our children may never be able to do it, with the decrease in natural resources."

"There is a remedy. Make Ohio a majority state instead of permitting it to be ruled by a minority and I promise you the problem will be solved," Donahay declared.

The candidate stated little more than he has a strong hold on the Buckeye state, using as an example voting by seven principal cities recently on bond issues totaling \$20,000,000. The cities represent 480,000 voters. Every issue was approved by 80,000, of them, Donahay said.

The stay-at-home-and-let-God-re-do-it attitude was scored by the speaker, who declared that minority and majority floor leaders in the general assembly are no more important than in churches or lodges. Only majorities are democratic, he said. If he is elected governor he will see to it that the rule of the minority is checked by putting a damper on legislative lobbyists if he has to call out the militia. Donahay told the assembly. He drew prodigious applause by this statement.

"Our legislative system is wrong. Some time ago our legislature spent exactly 33 minutes in passing a bill authorizing \$250,000,000 then turned and spent five hours in discussing a proposed amendment to the same law prohibiting shooting of rabbits by aid of auto spotlights."

Statement by Carmel Thompson that he approves the Harry L. Davis administration in toto was attacked by Donahay. He took up the various promises made by the present governor and showed how he has failed in each. Davis stalked up and down Ohio two years ago proclaiming that if the people elected him he would either save them thousands of dollars or he would not ask for a second term.

### ONLY ONE FILLED

"It appears the only promise he has fulfilled is that about the second term," Donahay declared.

The famous Ripper Bill was not only hit by Donahay, but described as a colossal crime. He said when the legislature passed the bill it enacted a law when the governor signed it he signed a lie and when the supreme court upheld it a lie was ratified.

Economy is an unknown virtue in the present administration, the candidate said. As an illustration of money being set aside for judging dogs at recent county fairs than for judging cattle, all because a minor state official exhibited a canine at the state fair.

While not seeking to pose as a political head hunter, George Poor, private secretary to Rud. Hynicka, appointed by Davis to the industrial commission, will last about 24 hours as he is chosen governor, Donahay told the assembly.

Donahay was called "Vic" by the crowd which met and shook hands with him after the speech. Ex-Senator Berry introduced him as a friend of the people.

The party is in the midst of a campaign of three weeks. Donahay is making an average of three speeches per day. The candidates left Thursday night for Keaton, where Donahay spoke at a Democratic rally.

Judge Phil Crow, candidate for the appellate court, was introduced to the voters and candidates for county positions mingled among them.

Mrs. Ross Mullen, Allen-co Democratic women's chairman, took the opportunity to meet with Spencerville women voters. Between 30 and 40 women were present at the rally.

# GRAIN DEALER'S LIFE NOT ROSY

Further Follow Farming, Two Tell  
Chicago Probers

CHICAGO—(United Press)—The life of a grain trader is not all that it is cracked up to be, according to two of the most prominent members of the Chicago board of trade.

Testifying before the federal trade commission in the probe of speculation on the board of trade, Arthur W. Rosenbaum and E. F. Rosenbaum, declared that the life of a grain trader is not all that it is cracked up to be.

Rosenbaum described himself as a speculator and a farmer, altho he had more than 2,000,000 bushels of wheat during the May season. He said he was a city man at last resort to the farm.

Rosenbaum told the commission

that he came to the city when he was 19.

"If you was 19 again, would you do the same thing or would you stay on the farm?" he was asked.

"Well, I don't know," he replied. "I haven't the health I would have had if I were a farmer."

"And you wouldn't have the bank roll you now have if you were a farmer," Victor Murdock, acting chairman of the board interposed.

The committee today was expected to delve further into the forces which resulted in the May squeeze when wheat tumbled from \$1.48 to \$1.16 in the last 12 days.

Several witnesses called yesterday declared that the Armour Grain Company was one of the largest holders of wheat at the time the car delivery rule was put into effect the latter part of May.

It was found five hours later in the railroad yards by a track walker. It has been rifled. Letters not wanted by the thief were found beside the pouch. Amount of loss is not known.

## Golden Rule Works With Water

ROME G. BROWN

MENAPOLIS, Minn., (Special)—Laws pertaining to water rights are complex, involving accepted a call to Christ Church in and contradictory. Yet Rome G. Brown, U. S. Y.

Brown, lecturer on the law of water rights in the University of Minnesota law school, says they practically can be reduced to 17 words:

"All things whatsoever ye would that men should do to you, do ye even so to them."

Yes, the Golden Rule; Mark 7:12. "Under the laws in some states today," says Brown, "surface waters are a common enemy," can be driven off as a burglar, without regard to how they are gotten rid of or scattered. This is in line with the old common law rule.

"Sporadic" decisions show changes in the old rule in many states; the recognition of the principle of the Golden Rule. This, in effect, means the preservation of the right to dispose of surface waters, but the method of their disposition must be such as to show proper regard for the owners of other lands.

In regard to the Golden Rule as the most sound and equitable statement that has ever been announced of the present and growing principles of the law of reasonable use.

# WORRY NOT, FIRST WOMAN SENATOR ADVISES

Most Care is Needless. Declares Mrs. Felton. Now Awaiting Seat

CARTERSVILLE, Ga., (Special)—"Needless worry is the bane of American life. And when you come down to it, most worry is of the needless kind."

Such is the motto of Mrs. William K. Felton, Georgia's "Grand Old Woman." Her potency is attested by the fact that since she has passed her 85th birthday she has become the first woman United States senator in the country's history.

Whether she is a senator, or in charge of Governor Hardwick's campaign, or whether she is merely a private citizen, she is always a questioner of the status quo.

But Mrs. Felton has no doubts. Settling on her own owned property, she has been active in the fight for woman's suffrage, and has been a member of the National Woman's Party since its inception.

"I would have worked for a long time for the cause of woman's suffrage, but I have not been able to do so. I have been too busy with my family and my other duties. I have been a mother, a wife, and a daughter, and I have been too busy with these duties to be able to do more for the cause of woman's suffrage."

She was equally active in the fight for the repeal of the 18th amendment. "I have been a member of the National Prohibition Party since its inception, and I have been active in the fight for the repeal of the 18th amendment."

Mrs. Felton's views on prohibition are well known. "I have been a member of the National Prohibition Party since its inception, and I have been active in the fight for the repeal of the 18th amendment."

The present prohibition amendment, Mrs. Felton believes, is a mistake. "I have been a member of the National Prohibition Party since its inception, and I have been active in the fight for the repeal of the 18th amendment."

In the last Georgia constitutional campaign, she threw her entire support to the late Senator Tom Watson and Governor Hardwick. Although Georgia is now a pure Democracy, they kept the state.

There at Macon, Mrs. Felton will take her seat in the Senate. Even though it is not until December, she has already been elected. Governor Hardwick, who appointed her, is a member of the Senate. "I have been a member of the National Prohibition Party since its inception, and I have been active in the fight for the repeal of the 18th amendment."

She will not run in the primary. Instead, she is supporting Hardwick.

In addition to her activities in state matters, Mrs. Felton is active in national matters. "I have been a member of the National Prohibition Party since its inception, and I have been active in the fight for the repeal of the 18th amendment."

MRS. WILLIAM K. FELTON

of two widely circulated books, once a congress man, she is credited with writing for many magazines and for writing many of his fiery speeches.

For half a century she has advocated woman's suffrage. Her position in politics is even recognized by President Harding, who invited her to Ballantyne, Fla., to spend several days discussing national topics.

She has been equally active in educational matters. "I have been a member of the National Prohibition Party since its inception, and I have been active in the fight for the repeal of the 18th amendment."

Mrs. Felton became active in politics when her husband, the late Dr. William Felton, who was both a physician and a politician, died.

"America's greatest need? More of the teachings gained at the knees of our mothers, at little red school houses and at Sunday school. No law ever written can improve the character of the citizen. The only way to have the Lord thy God with all thy heart and with all thy strength and with all thy mind, and thy neighbor as thyself."

"Good laws and lawmakers are always needed. What is needed is enforcement of the laws on the statute books. There must be more emphasis on education and improvement of our living standards."

HIT BY AUTO — Clark Kent, south of Piquette, was severely injured here when he stepped from the back of his motor wagon when he drove into the path of an oncoming automobile. He was struck by the machine and knocked unconscious, suffering severe injuries to his left arm and side. After stopping, the driver of the car left the scene and was not identified.

### AUTOIST ARRESTED ON MANSLAUGHTER CHARGE

DAYTON — Grover Cleveland Riley is under arrest on a manslaughter charge, charged with killing Roy Brown, a city employee while driving an automobile while intoxicated. Riley denied he was drinking.

He was taken to a hospital and a stomach pump used. Report of the autopsy will be used to prove or disprove the drinking charge. He also denied he was driving at a rate of speed. Marks on the bridge police say, show he slid his car 45 feet before striking Brown, who was riding a bicycle.

### HELD UP BY THUGS

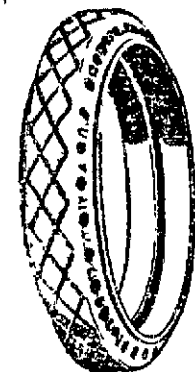

Kansas City Bank Messenger Robbed on Car

KANSAS CITY.—(United Press.) — Two bandits boarded a crowded street car today and held passengers at the point of revolvers while they robbed a bank messenger of a satchel, containing \$9,500 in cash.

The holdup occurred on the border of the business district during the noon rush hour. The messenger was taking the cash from the federal reserve bank to the Live Stock Exchange bank.

Defying superstition of the bandits concerning the 13th, two men stopped the street car by pointing revolvers at the motorman. The bandits boarded the car, ordered the passengers to hold up their hands and then obtained the messenger's satchel.

The bandits escaped in an automobile while several men standing nearby commandeered another motor car and gave chase, police also took up the pursuit.

Appears Before Investigating Committee in Own Behalf

Investigation of charges filed by Ben F. Welty, former congressman, against R. R. Trubey, assistant prosecuting attorney, is being continued by the committee of the Allen-co bar association.

No finding will be made at this time, according to members and no announcement of the plans of the committee is made public.

Witnesses who were examined Thursday afternoon are believed to have offset portions of Welty's accusations. Among those examined were E. M. Botkin, before whom the Welch case was tried, and Wilbur Cherry, detective who arrested Trubey. Trubey also testified in his own behalf.

By a 100 per cent vote, taken Thursday night, Lima Lodge No. 199, Loyal Order of Moose, rejected an offer made by Trubey to resign as dictator.

Morton with his aide Walter Masie, were to report to their chiefs immediately upon landing. When no word was received from them late last night the balloon was reported lost and it was feared the pilot and his aide had come to some disastrous end. When the two balloonists reported for work this morning it was learned they had landed at Atwater about 15 miles from the city at 2:30 Thursday afternoon after 40 minutes in the air. In their anxiety to reach a professional football game between Akron and Rochester Morton and Masie forgot to report their safe landing.

COLUMBUS.—Democrats today had turned their artillery against the Republican "campaign text book" just issued from Republican state headquarters.

Referring to endorsement of the Davis reorganization emergency bill by the "textbook," Democratic headquarters makes the following comment in a statement:

"We wish to compliment the Republican organization on its frankness and honesty in openly espousing the emergency clause of the Davis reorganization 'ripper' bill. Its approval of this violation of the referendum rights of the people is in strong contrast to the evasion of its candidate for governor Carmi Thompson, who deigned a personal statement on this vital issue."

Election Already Won Thru Prosperity, Adams Says

"NOT CAMPAIGN OF EMOTION"

Basis for Confidence Outlined in Interview

(BY LAWRENCE MARTIN)  
WASHINGTON, Oct. 12 (United Press).—The chief of the Republican party, Charles F. Adams, today said that the election was already won thru prosperity, and that the campaign was not one of emotion.

Adams, who is chairman of the Republican national committee, was interviewed today by the United Press. He said that the Republican party was confident of victory because of the prosperity of the country.

"The campaign is not one of emotion," Adams said. "It is a campaign of reason and of common sense. The people are tired of the old party and they are looking for a new one."

Asked to outline the basis for his confidence, Adams said: "The basis for our confidence is the prosperity of the country. The people are happy and they are looking for a new party to represent them."

"The campaign is not one of emotion," Adams said. "It is a campaign of reason and of common sense. The people are tired of the old party and they are looking for a new one."

# WEALTH SEEN AS DETRIMENT

Prosperity Bad for Race, Swedish Expert Declares  
STEP TOWARD DEGENERATION

Eliminates Middle Class, Says Professor Lundborg

STOCKHOLM. — (Associated Press) — Prosperity is a bad thing for a race because it is one of the first steps toward degeneration, is the opinion of Professor Herman Lundborg, head of the Race Biological Institute at Upsala, Sweden, and well known for his investigations in eugenics and racial biology. Prosperity brings with it the gradual elimination of the good old middle class, the professor declared in an address on this subject, and this in any country is a sure sign of degeneration. "There is grave doubt," the speaker continued, "whether a people really gains when millions of money are poured into the country. Experience, past as well as present, shows that when wealth is suddenly increased it brings ends which are not desired. Luxuries are demanded, lassitude sets in, and the interest in work and production falls off. Women begin to avoid motherly duties. All of these processes, beginning in the middle and upper classes, gradually work downward, and in time destroy the race. Thus they are as much mercuric to a country as a powerful political enemy."

**BIRTH CONTROL.**  
The professor approves of birth control, however, especially among the less desirable elements of a country's population, and he believes that the reproduction of a race should be limited, as far as possible, to those who are "well-born."

He is strongly opposed to the mixing of races, and gives this as one of the reasons why population in larger cities tends to degenerate, except in so far as racially replenished from the country districts.

"Europe is decaying, not only as a result of political cataclysms, but also because of a misconception of racial hygiene, and a failure to counteract the forces of degeneration. A strong, middle class is necessary for the racial health of a people. Increasing industry and trade make it possible to feed a larger population, but at the same time bring about a serious change in the structure of society. The old middle class decays and finally disappears. A new middle class is formed, to be sure, but it is of poorer substance. Meanwhile there is numerical gain in both the upper and lower classes, especially the latter. In time the working class becomes the largest, and underneath this comes a layer of human trash."

## CONGRESS WILL PROBE CLEVELAND POSTOFFICE

CLEVELAND — Congress is to probe the Cleveland postoffice situation and the ousting of W. E. Schutt as assistant postmaster. Congressman Harry C. Gahn today announced he had received an invitation from the joint house and senate committee, investigating post-offices to present details of the Cleveland situation about December 1.

Gahn said he intended to ask why Postmaster General Work never gave Schutt a formal hearing on charges Work alleges brought about Schutt's demotion to clerk.

## TIGER SAILS FOR U. S. NOV. 11

Clemenceau Making Final Preparations for Voyage

### SPEAKING TOUR ARRANGED

First Address to be Delivered in New York

PARIS — (Associated Press) — Former Premier Georges Clemenceau returned from the country today and began final preparations for his second American trip with as much enthusiasm as for his first trip more than 50 years ago.

He will sail on November 11 and deliver his first lecture at the Metropolitan Opera House, New York, on November 23, after which he will talk in Boston, Chicago, Kansas City, New Orleans, Washington and possibly Philadelphia.

The Tiger was in the best of spirits on his arrival. He preferred to talk in a joking way of the different interpretations that have been placed on his undertaking but he refused absolutely to be interviewed as to what his course in America would be. He remarked, however, with a twinkle in his eye that his trip did not please everyone here.

**TO ASK NOTHING**  
Furthermore, in spite of his aversion to interviews, he made it clear that his voyage was not connected with the program of any political party, and that it was arranged entirely outside any political consideration or affiliation. He was going to the United States, he indicated, to ask nothing, to suggest nothing and with the sole purpose of stating the French case.

He has to plan for American participation in the settlement of European troubles, he made it plain, and will carefully refrain from anything that looks like an appeal to the United States for aid. The aim of his speeches will be to reach American public opinion with what he considers a fair and loyal statement of the final situation.

"I know I'll get a fair hearing," he said, "and that's all I want."

## VOTE INCREASING

Donahey and Pomerene Lead in Enquirer Vote

CINCINNATI — (Special) — Majorities for Vic Donahey, Democratic candidate for governor, and Atlee Pomerene, democratic candidate for Senator, over Carmi Thompson and S. D. Fess, their respective Republican opponents, continued to grow thru additions to The Cincinnati Enquirer's straw vote today.

Added to previous totals were votes from Ansonia, Washington, D. C., Greenville, Franklin and a few from Cincinnati.

Grand totals follow:  
FOR GOVERNOR: Donahey, 2,833; Thompson, 2,250.  
FOR SENATOR: Pomerene, 2,747; Fess, 2,072.  
DEER AND WINE: For, 4,426; against, 1,193.

In the tabulation it is shown that 111 changed from the Democratic to the Republican party and that 532 changed from the Republican to the Democratic party.

Lardner Listens in and Grabs the Good Ones

NOT HIS START IN BASEBALL

Now Famous Humorist Still Watches the Bushers

BY JOSEPHINE VAN DE GRIFT

NEW YORK.—(Special).—Back in 1914 there was, as things go, a world series. Stories on the world series were written by various well known ball players and published in the newspapers. Then somebody began kicking up a little trouble.

Those stories aren't written by ball players at all," he said. "Somebody else writes them and then the ball players read them."

A young sport writer who was in Chicago Tribune got

affected. "If I'd write up these stories in the way a ball player would write them up."

Which was the way that Ring Lardner became a humorist.

Lardner endeavored to tell about the fourth day of the world series recently completed. The place was that retreat immediately beneath the grand stand where newspaper men congregate to tell how it might have been avoided and to

nothing to it. Lardner, whose countenance, if not his, at least suggests a deeply introspective turn of mind sat down on the chair which three waiters

offered him. "It's really nothing," he began. "Some chicken salad and a few

eggs. There's nothing to it, you see, you just stand around and listen to the ball players talk."

The waiter bowed from one foot to the other. "Some cold Virginia

club sandwich and a few eggs."

# BANDIT BEGS FOR BRAIN OPERATION

Thinks Surgeons Can Stifle His Criminal Impulses

WIFE JOINS IN PLEA TO U. S.

Roy Gardner, Serving Prison Term, Asks Chance

LEAVENWORTH, Kas. — (Specialist)—Does Uncle Sam keep his word with a mail train bandit?

Roy Gardner, mail bandit and slipperiest prisoner federal officers have tried to make "stay put" wants to know. It may mean that he will be transformed from the most close-

ly watched inmate of the federal penitentiary here into a model prisoner.

After the most picturesque career of banditry and thrilling escapes the country has known for a decade, Gardner last fall was sentenced to serve 25 years at Leavenworth prison. This was after McNeill's Island federal prison had been unable to confine him.

"Judge, I will go, and will give my word not to escape this time if you will promise that I be permitted to undergo an operation to make my brain function right," pledged Gardner, when a federal judge at Phoenix, Ariz., sentenced him.

**NO OPERATION YET**  
Gardner says the judge agreed. Gardner came here, went to work in the tailor shop, and has been a model prisoner.

So far, there has been no operation.

Judge William Sawtelle, who sentenced Gardner, said he made no such promise. Harry M. Daugherty, attorney general, refuses to grant permission for the operation. But Gardner and his wife insist the

promise was made, and they continue the fight to have surgeons seek to stifle his criminal impulses.

Before Attorney General Daugherty are statements of reputable surgeons that they can cut into Gardner's skull and raise any portion that may be pressing upon his brain. They are supplemented by statements of Gardner's friends that they believe such an operation would remove crime actions.

Daugherty also has the report of the Leavenworth prison physician that Gardner is not different from other prisoners. An operation, the physician contends, would not change Gardner's physical or mental condition.

Supporting the physician is a report from Heber H. Votaw, brother-in-law of President Harding and superintendent of federal prisons. Votaw abides by the decision of the prison physician.

Unless Daugherty himself issues the order, the operation will not be performed.

**WIFE STILL HOPEFUL**  
But Dolly Gardner, the bandit's pretty wife, has not given up. When

she gets the necessary funds, she will go from her home at Napa, Cal., to Washington to press her plea. Both she and Gardner say the money is ready to finance the operation. Neither will divulge its source, however.

Recently \$350 was sent to the prison warden in an anonymous letter stating it was to finance the operation.

"I have a moral right to be normal, and thus be able to live straight, even tho I do have to remain in prison," declares Gardner. "I believe that without part of my skull pressing on a certain part of my brain, I would not be swept by criminal impulses."

"A blow on the head, as I fell from a horse, caused the trouble. That was when I was a boy in Missouri. As years went by, I chafed from a model youth in Chillicothe, Mo., to a lawbreaker."

"I could not control the impulse to hold up trains and escape from prison. It drove me to taking desperate chances."

**PLEASANT CHAP**  
Gardner has a pleasing person-

ality and is of a high intelligence. He was idolized at one of the big San Francisco shipyards, where he had charge of an important department during the war. After his first escape from federal officers, he won much sympathy in the west when he returned to California to surrender.

Finding officers sought to capture him and thus get the reward Gardner thought should go to his wife and child, he eluded them. A few days later, a mail train was robbed. Gardner was arrested and sentenced to McNeill's Island.

**HAD PUBLIC FAVOR**  
Public opinion sneeked when Gardner again escaped his guards, this time by covering them with their revolvers, manacled them, and escaping from a train. After he was recaptured and made his third escape, popular sentiment was all on Gardner's side.

"He'll go far away now, and go straight. Good luck to him," was the oft-expressed sentiment. Gardner's refusal to shoot during holdups or escapes was a peculiar trait that struck popular fancy. He was held to be a "good man gone wrong."

Then came an order putting marine guards on mail trains and in post-offices. This was a direct challenge to Gardner's perverted impulses, say his attorneys. He could not resist, even tho his future liberty was practically assured by keeping under cover, as he went to Mexico.

Instead of an armed guard, Gardner found a powerful young mail clerk, Herman Underhill, in the car. The clerk overpowered him. Gardner put a pistol against Underhill's stomach. He didn't pull

the trigger. Instead, he submitted to arrest. "I wouldn't care so much about the operation if it wasn't for Dolly and the baby," says Gardner. The baby's almost six years old. I'd like to get out honorably some day and care for her and her mother."

To John D. Rockefeller, Jr.

DEAR JOHN: I read that your fortune has been increased some \$50,000,000 during the past seven days by the spectacular rise of Standard Oil stock. The increase in market value looking this much difference on your holdings. Meanwhile, I read of a can of one-cent a gallon, effective today in the price of gasoline. Ah, boy, John! The stock market didn't help me, but the old flapper must have some and a penny's a penny.

To Voters

FRIENDS: My favorite newspaper is taking a straw vote. It is being done by personal visit and consequently everyone cannot be reached. If you are approached, you may vote with the assurance that the vote will be conducted in a non-partisan, unbiased manner and as nearly correct as is humanly possible. If you are not approached, please don't feel slighted as my boys and girls can't visit all of you.

## POEMS YOU WILL ENJOY

By REYTON BRADLEY

## DREAMS

I've gradually stuck to my knitting. I've plodded along here at home, I've never had chances for flitting. Alas! I've been crazy to roam! But oh the great dreams I unravel. The visions I've had by the sea or in the night travel and travel. And after that—travel some more!

By thought of adventure I'm haunted. But, being passionately weak, I never have got what I wanted. I never have found what I seek; The fault is my own, I can't evade it. I'm at it again, quite a bore, Because I can't travel and travel.

And after that travel some more! But when I am done with existence, And tasks that are hum-drum and stale, I hope I can roam thru the distance, And flow each heavenly trail; Beyond all his grime and this gravel, I'm longing for stars to explore, To travel and travel and travel, And after that—travel some more!

**How quickly Resinol is clearing up that eczema**

That's the Point! The moment Resinol touches an itching, burning skin, the suffering usually stops. A few days' persistent treatment rarely fails to clear away the inflammation and soreness and finally restores the skin to its natural healthy condition.

Resinol Soap and Resinol Shaving Stick contain the same soothing properties and are used by discriminating men who like their generous, cleansing lather and wholesome Resinol fragrance.

Amble About Studio Devoid of Clothing

NEW YORK.—(United Press).—A beautiful manicurist to whom a number of the nation's most prominent artists owe a debt of \$100,000, was revealed here today.

William Fisher, magazine illustrator, said he was introduced to her by a friend who had a beautiful figure and she induced him to let her pose for him.

She kept an appointment at my studio one night last week," Fisher added. "Ever before I was ready to part she started to run around the place."

In the presence of a friend, Fisher, feeling her not to disrobe, and work on the canvas before him.

When she came one rapped at the door. She called, clapped and opened the door. I opened the door. The visitor was a friend of mine. Then the girl quit her queer behavior and used the back of her hand to wipe her face.

Fisher said he has since learned of a candidate of the girl was exposed to have broken into the studio when she was there nude, but which she plans went wrong.

Mrs. Wallace Henkel, a model, advised her artist friends of a black and white plot of the girl.

"Then she met several artists and wanted to pose," said Mrs. Henkel. "She finally admitted she had made \$100,000.00 through her posing."

She had a little book in which she listed the names of the artists. Of course, I told them about her."

Jack Flanagan, magazine artist, said the girl demanded \$500 of him, and he ordered her out.

# MRS. DE BOUCHE TO SUE CANDLER

Charges Atlanta Capitalist With Defamation of Character

ATLANTA, Ga.—(United Press).—Suit for defamation of character will be started within two weeks by Mrs. Onizima De Bouche against Asa C. Candler, former Coca Cola king, according to her attorney.

Mrs. De Bouche and her lawyer, Harry Gamble, have gone to New Orleans where further investigations will be made into the authorship of the alleged "poison pen" letters said to have caused Candler to break off his engagement to her. The suit against Candler will be instituted on their return to Atlanta.

Mrs. De Bouche, just prior to her departure, reiterated that she had no desire to prosecute Candler.

"I am fighting for vindication and even the feelings of respect and esteem, in which I formerly held Mr. Candler cannot be allowed to interfere in this fight."

"Mr. Candler's letter in reply to mine that was written after Mr. Gamble's visit to Atlanta is not locked up in New Orleans. It contains passages of a nature that shows that Mr. Candler was impressed with the justice of my request that I be furnished with the names of my slanderers."

# OHIO COAL PRICES PROTESTED

Massillon Company Declares Maximum Figures Too Low

COLUMBUS — (United Press).—First formal protest from coal operators against the state fair fuel price was filed today with Fuel Administrator Neal. New Pocock Coal Company, Massillon, filed protest declaring the maximum price of \$4.86, fixed for District Number 7, is too low and asks reconsideration.

The company's protest is specifically against the fixed price as it affects what is called the Number 1 seam of coal in the Massillon district. Under the price fixed the company claims, it can make no profits, alleging that average production costs at its mine is \$4.93 a ton.

Maximum price of \$5.92 is asked on the ground that government engineers, according to the company, late in 1918 recommended that the Garfield price of \$3.75 be increased to \$1.25 a ton for the Number 1 seam coal.

Because the Massillon coal lies in pockets, the company states it is expensive to mine, and in normal times sold regularly at higher prices than other coal.

Administrator Neal has notified the company that hearing on the protest will be conducted at the fuel administration offices next Monday afternoon. Emergency fuel control bill provides for such hearings when protest is filed within ten days after publication of fixed prices.

# SHIP IS BURNED BEYOND REPAIR

SAN FRANCISCO — (Associated Press).—The passenger-carrying ship of Honolulu which burned at sea was transferred to the United States army transport Thomas from the rescue ship West Faralton at dawn today according to an official message received by the Federal Telegraph Company.

The Thomas is due in San Francisco tomorrow, but it is expected she will be at least a day late.

The message said that the City of Honolulu was burned beyond repair and that it would be two days at least before any ship would be able to approach her on account of the intense heat. The message indicated that the transfer of the passengers had been effected without any particular incident.

Two messages sent by the Thomas today to army transport headquarters here were made public upon their receipt. The first said that the Thomas was alongside the West Faralton at 8 a. m., and the second said that it had been decided to wait until dawn to transfer the passengers "as they are asleep."

According to this last message the West Faralton advised the Thomas that it did not have proper accommodation for the passengers and crew of the City of Honolulu.

The second message gave the list of the City of Honolulu as 39 women, 35 men and 187 members of the crew.

# 500 CASES OF LIQ'OR ARE TAKEN BY BANDITS

CHICAGO — A score of bandits, holdup men, invaded the Grommes, an Irish bonded war houses, a hall block from traffic police headquarter, and captured a postman who was being admitted to the building, bound five employees and escaped with 500 cases of liquor loaded on three motor trucks.

At least twenty men were in the band, according to police reports and before the postman and employees could escape to summon police squads, the robbers with their motor trucks had vanished.

# RAILROAD SHOPMEN ARE TO DEMAND JURY TRIAL

CHICAGO — Railroad shopmen, named in the Daugherty injunction, will demand a jury trial, in an effort to balk the granting of a permanent injunction, it was announced today.

Donald R. Richberg, attorney for several of the shop craft leaders, declared he would move for this procedure next Monday. He contends that the government's charge of conspiracy to interfere with transportation involves a question of fact that can only be determined by a jury.

The federal court has granted the government's motion to have the case referred to Charles B. Morrissey, master in chancery for hearing between October 18 and November 18.

# SIDEWALK WAR IS THREATENED

City Orders Property Owners to Raise Cement Path

An attempt by the city to enforce the sidewalk grade set by the city engineer because of the property of the Business College and the Argonne Drug Store on Elizabeth-st., will probably result in a court fight, C. A. Bingham, city manager, said Friday.

Legal notice has been served upon E. H. Hawisher, S. S. Fishel and other owners of the property occupied by the Colonial hotel requesting that they raise the grade of the sidewalk to that established by the city.

This the owners of the property have refused to do. Bingham said, claiming that if the sidewalk is raised it should be paid for by the city. City officials have been informed that any attempt by the city to collect, should the sidewalk be built, will be fought in court.

"Legal notice has been served upon the property owners and the city is within its rights," Bingham said. "We will fight the case to the supreme court if necessary," he added.

At the present time the sidewalk in front of the Business College is several inches above that in front of the Colonial hotel.

Work will be started in the construction of the sidewalk in the near future by the city, Bingham said, and the cost assessed against the property in the same manner as against other sidewalks built by the city.

# CLAIM AWARDED AGAINST U. S.

Arbitration Tribunal Passes on Norwegian Case

THE HAGUE—(Associated Press).—The arbitration tribunal, with the American arbitrator not sitting, has awarded approximately \$12,000,000 to the Norwegian government on behalf of fifteen Norwegian corporations and individuals known as the Christiana group for claims arising from requisition of ships by the emergency fleet corporation during the war.

Chandler P. Anderson, the American arbitrator instead of attending, addressed a communication to the secretary general of the tribunal and the agents of both governments declaring in his opinion the tribunal had violated the terms of submission and had exceeded its jurisdiction as stipulated by the special agreement between Norway and the United States, signed June 30, 1921, under which the question was submitted to arbitration.

The case was brought by the Norwegian government against the United States on a claim for \$17,000,000 for Norwegian ships in American ports which were seized during the war. The United States government contended for a settlement for \$3,000,000.

## SALLY, IN STORMY SCENE, QUILTS JOB

By Zoe Heckley

"Sit down again, Sally—" Canby's tone was cool and masterful. "You don't understand. We are paying you a good salary not for your present ability much as it is, but for what training will do for you. We can't let you stop developing."

"Then I shall pay for it myself," Canby smiled.

"Look over the bills some time. Golden will show them to you. Your pay might cover—well, your literature lesson."

"Then I'll take only what I can pay for."

He looked at her wryly.

"Listen, Sally, while I make things clear. Your contract calls for as the training I've mapped out for you. You're going on with it. A contract's a contract, and this one is a contract."

"No contract can compel me to stay under obligations I can never repay. I don't believe now—that you expect to get back in cash what I owe you."

He glanced at her sharply.

"What will you do about it?"

"There are other theatrical—"

"No manager will want to pay what it will cost him to defend the suit I'd bring if he employed you before your five years' contract with us is up."

Sally looked into his face, her sky-blue eyes like pools of light in which he seemed to see himself reflected unceasingly.

"Come—I'm not a bad sort, you know. You mean a lot to me. Don't you worry about anything—repayment and that. Time enough when we come to it."

He reached across the table, but Sally withdrew her hands and clasped them in her lap.

She looked down at them, now so well kept and pretty, but she was not thinking with pride or vanity. Her heart was sick within her. She lifted her eyes and met Canby's squarely.

"We'll never come to it, Mr. Canby. Even when I scrubbed floors and peeled potatoes for a living I was never under obligation that I could not meet. I certainly have no excuse for such a thing now. I shall quit the Frolics. You won't sue me for breach of contract. There wouldn't be anything you could collect on."

She got up, and drawing on her cape, went slowly to the door.

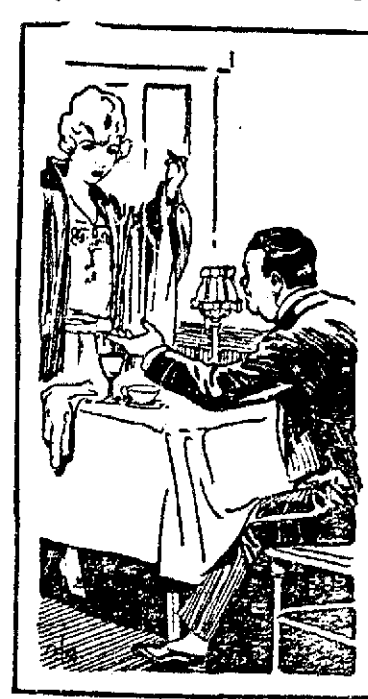

"What can you do outside the theatre?" Canby's voice was cold again and had a sneering edge on it as he turned for a moment.

"Oh—there's always a demand for housework. Don't forget I've had a lot of training in that line too."

And she closed the door firmly behind her.

SUSIE SMART'S ADVICE

Miss Smart possibly know her mind  
whether she loves a man or not  
the day of 15. That is, if she has  
with a young man since she was  
years old and has gone with a cer-  
one for the past couple of years.  
she told me as I am worried.

A GIRL  
there are some than can; others  
can not. There have been  
girls marry at the age of 18  
and younger and 'lived happily  
ever after'. However, in the major-  
of cases a young marriage is not  
satisfactory because countless times  
girls and men have discovered  
after marriage and have mis-  
taken a mistake for love  
and were infatuated for love  
and not too young for a girl  
to be engaged if she is not of  
a stable nature.

It is a mother could realize  
like she is making in  
her daughter to accept  
proposals from boys at the age of  
18.

What will take  
a girl from getting soft  
when a man puts them up  
and they become soft  
and good for the hair and  
use it.

# THE FLAMING JEWEL

By ROBERT W. CHAMBERS

**BEGIN HERE TODAY**

A great three-cornered duel was being fought in the North Woods for the possession of the priceless gem, the Flaming Jewel. It had first been stolen from the royal castle of the COUNTESS OF ESTHONIA by the International Thief.

QUINTANA, in Paris, Mike Clinch had stolen the jewel from Quintana and carried it back to his respectable hotel at Star Road, where he boarded it for the education of his son, STRAYER. Then there arrived JAMES HARRAGH, under the name of SMITH, who had sworn to recover the jewel to the now legendary Countess. Quintana and his gang also arrived to reclaim the stolen jewel. Quintana captured Eve, who is finding the jewel packet, but she escaped after a brief treatment. She is hidden back in the woods.

STAYE THROUGHT, STORMONT, on entering the camp, she drops the packet and it is taken by JAKE KLEON and EARL LEVERETT. Two respectable hangers-on, Clinch awaits to wipe out Quintana's gang and will then, Kleon and Leverett.

HE FENT OVER HER TO SEE IF SHE HAD ALREADY FALLEN ASLEEP.

On the edge of Owl Marsh Clinch halted in the trail, and, as his men came up, he counted them with a cold eye.

"Here's the runaway and this here hazel bush is my station," he said. "You fellows do the barkin'. You, Sid Hone, and you, Corby, start drivin' from the west. Have you, you, Jim and Byron, you get twenty minutes to go 'round to the eastward and drive by the Silks. And you, Hal Smith," he looked around — "where's hell be you, Hal?"

Smith came up from the bog's edge.

"Send 'em out," he said in a low voice. "I've got Jake's tracks in the bog."

Clinch motioned his hangers to their duty. "Twenty minutes," he reminded Hone, Corby and Blommers, "before you start drivin'."

And, to the Hangers boys: "If you shoot, aim low for their bellies. Don't leave no blood around. Scrape it up. We have what we want."

He and Smith stood looking after the five dandruff boys until they were lost to the trees and trails. When all had departed, he said:

"Show me I have a man," he said.

Smith looked at him for a moment, then he said:

"I'll take such good care of it," replied Smith, "that its proper owner need not worry."

CHAPTER III

The "proper owner" of the packet was at that moment, on the Atlantic Ocean, traveling toward the United States.

Four other pretended owners of the Grand Duchess Theodorica's jewels, totally unconscious of any thing impending which might impair their several titles to the gems, were now gathered together in a wilderness within a few miles of one another.

Joe Quintana lay somewhere in the forest with his gun, fiercely planning the recovery of the treasure of which Clinch had once robbed him. Clinch, crouched on his run, way, watching a mountain flock with nervous eyes. It was no longer a Flaming Jewel which he sought, but the person ruled by it. The hand that held the jewel was the hand that held the jewel.

He and Smith stood looking after the five dandruff boys until they were lost to the trees and trails. When all had departed, he said:

"Show me I have a man," he said.

Smith looked at him for a moment, then he said:

"I'll take such good care of it," replied Smith, "that its proper owner need not worry."

CHAPTER IV

Eve slept the sleep of mental and physical exhaustion. Reaction from fear brings a fatigue more profound than that which follows physical overstrain. But the healthy mind, like the healthy body, disposes very thoroughly of toxics which arise from terror and exhaustion.

The girl slept profoundly, calmly. Her bruised young mind and body left her undisturbed. There was neither restlessness nor fever. Sleep swept her with its clean, sweet tide, cleansing the superb youth and

turned her face on the pillow. He drew aside the cover a little, knelt down beside the bed.

Then he rose and went downstairs to the kitchen. There was hot water in the kettle. He fetched it back, bathed her feet, drew out from cut and scratch the flakes of granite, grit and briar-points that still remained there.

From his first aid packet he took a capsule dissolved it, sterilized the torn skin, then bandaged both feet with a deliciously cool salve, and drew the sheets into place.

Eve had not stirred nor spoken. He washed and dried his hands and came back, drawing his chair nearer to the bed.

"Sleep, if you feel like it," he said pleasantly.

As she made no sound or movement he bent over to see if she had already fallen asleep. And noticed that her flushed cheeks were wet with tears.

"Are you suffering?" he asked gently.

"No. . . . You are so wonderfully kind. . . ."

"Why shouldn't I be kind?" he said, amused and touched by the girl's emotion.

"I tried to shoot you once. That is why you ought to hate me."

He began to laugh. "Is that what you're thinking about?"

"I—never can—forget—"

"Nonsense. You're quits anyway. Do you remember what I did to you?"

He was thinking of the handcuffs. Then, in her vivid hush he read what she was thinking. And he remembered his lips on her palms.

He, too, now was blushing brightly at memory of that swift, sudden rush of romantic tenderness which this girl had witnessed that memorable day on Owl Marsh.

Twelve Toes answered: "Light Fingers here stole the Fairy Queen's automobile for me, and then the Twins, Nancy and Nick, got it back. I sent Light Fingers back for it by way of a magic bean-stalk, but the apple-tree fairy caught him and stopped him. Now we don't know what to do. Can you help us?"

## Blood Pressure Down Five Degrees

Mrs. Charles Whitney of Troy Tells How to Quickly Reduce High Blood Pressure

"I have suffered from high blood pressure since last July with a sure of 222. I would have the severe headaches that come with the pain and ringing in my ears. I had terrible dizzy spells at times so bad I would have to grab hold of something to keep from falling. I would faint away. Finally, I became nervous and could not sleep nights.

"I heard of NORMA and decided to give it a trial and I'm certainly glad I did. Why you know the first day my pressure went down five degrees and I slept fine, getting a good night's rest. Those dizzy spells have left since the first few doses. To be rid of those headaches alone is worth a fortune for they were torture. I recommend NORMA highly to anyone suffering as I did. ## A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

# JUDGE LANDIS' OF STOCK MARKET

Just a Suggestion at Speculation Hearing  
TRADING IS NOT GAMBLING  
So Federal Trade Commission Finds at "Court"

(By EDWARD M. THIERRY)  
NEW YORK (Special)—  
When is a gambler not a gambler?  
The answer is: When he is speculating in the grain or stock exchange.  
That's what the Federal Trade Commission found out when it examined such men as Julius Barnes, grain millionaire, and Jesse L. Livermore, Wall Street operator.  
The commission was trying to find out—still is—whether there was manipulation of the grain market in the sharp slump of 1920 and in 1921. The scene was a solemn courtroom, but the solemnity ended there.  
Commissioners and witnesses swapped jokes across the table and the stenographers paused every little while so the laughter wouldn't get into the solemn record.  
Everybody laughed at each other's jokes. Like these:  
WHY CHANGE RULES?  
Why should the Chicago Board of Trade change the rules of grain trading? asked Commissioner Victor Murdock, the red-haired congressman from Kansas. "You wouldn't like that in poker—do you get the rule out when you were holding four aces?"  
"I don't play poker," said Barnes,

chuckling.  
Murdock laughed heartily, retorting: "Well, speaking of poker—I'm not going to advertise my innocence here."  
Later Barnes said: "I don't agree that it is immoral for a man to speculate. It is our modern way."  
"And yet you bar poker!" boomed Murdock, laughing triumphantly.  
Pleasantries were exchanged with Livermore, too.  
"I am not a gambler. I am a speculative investor," said Livermore disclosed the difference between a gambler and a speculator: That a gambler buys an old stock and prays the market will go his way, while a speculator studies the market and forecasts the future.  
**NOT GAMBLING**  
"Nothing could be clearer than that!" said somebody. And for some reason everybody thought the speaker was joking.  
"Future trading in grain isn't

gambling," declared Barnes. "There are five or six legitimate turnovers of the grain in Chicago."  
"Wouldn't it be a good idea to have a 'Judge Landis' of the grain market—as in other sports, like baseball and the movies?" somebody suggested.  
"Yes, if he wasn't interested in grain," said Barnes, sagely.  
Commissioners and witnesses shook hands all around, complimented each other in their jokes, and another pleasant gathering broke up.  
Watch for the published testimony in book form out of the government printing office. It should be good reading.

August 20, 1922  
Stearns Electric Paste Co., 100 West 1st St., Youngstown, Ohio, came in our store the other day and wanted to know how to kill rats. We told him to buy a box of Stearns Electric Paste. And he put some paste on six biscuits that night and the next morning he found fifty-four rats and 12 second night he put out four more biscuits with paste on them and the second morning he found seventy-nine rats, making a total of seventy-nine rats in two nights, and there were lots more that he did not find.

## MINISTER, WIFE SHE SUFFERED 20 IN SCHOOL SOLID YEARS

Father and Mother Seek Learning, Altho Late

HIGH GOAL SET BY THEM

He Hopes to be Preacher—She His Equal

BRAUMONT, Tex. — (Special) — Trapped into one of the small desks in a local grammar school, Rev. Albin Leon Hadley, a minister, married, and a father, sits poring over the seventh grade text books, reciting his lessons with his children. An 11-year-old boy is his devotee. Across the room sits his wife who has entered the same class.

Altho he's 26, Hadley plans to go right on attending school until he finishes college.

Regular attendance at school was denied both Hadley and his wife, who were raised in an isolated district, where children, this year, they decided to make something of their lack of education, enter school and go as far as their thirst for knowledge.

**MUST EARN SCHOOLING**

The Hadleys have only their own resources to put them through their fight for learning. Before he goes to school, Hadley delivers a morning newspaper route. After classes and on Saturdays he devotes his time to odd jobs. Mrs. Hadley, too, divides her out-of-school time between home and baby and extra work for pin money.

The two-year-old Hadley baby offered the first difficulty. It took some little time to arrange for its care during school hours.

Hadley, however, showed up the first day of school. Unimpressed, he took his place among the youngsters in the class. When school started, he earned permission to address the children.

**PUPILS LIKE THEM**

Heard of the hardships of his youth, the hardship of bucking the world without book learning. Pupils who had been disposed to snicker at the grown-up student were profoundly impressed. They readily sympathized with him, and when at recess, he joined the boys in their games. He was duly elected a "regular guy."

Mrs. Hadley became equally popular with the girls. The two adult pupils have been given the job of making all playground disputes.

Hadley, thru intensive study of the Bible and his ability to talk, earned recognition as a local Baptist minister at Rose Pine, La. But he wants to become qualified to minister in the largest congregations. The theological seminary is his educational goal.

Meanwhile his wife intends to accompany him along his school journey.

She is willing to work very hard to get an education, she says. "For if my husband becomes a minister he hopes to be, I also have a college education. It is a matter of time before we are equal in education."

Is Just So Grateful to Plant Juice Since It Relieved Stomach Trouble

COULD EAT ONLY LIQUIDS

"Plant Juice is wonderful. It restored me to good health and has enabled me to enjoy life again after 20 solid years of suffering from stomach, kidney and nerve troubles and I want to highly recommend the remedy to the general public."

MRS. MAY CHRIST

The above is part of another surprising testimonial received by The Plant Juice Man when he was in Toledo, Ohio, recently from Mrs. May Christ, of 1829 Adams street, Toledo, a popular lady. The Plant Juice Man is now in Lima, introducing and explaining his herbal remedy at Hunter's drug store, 49 Public Square, where crowds of local people are calling daily.

"My stomach was in a awful condition," Mrs. Christ continued. "Gas would form and I would suffer terribly from indigestion after meals. It finally became so bad that I could eat only crackers and liquid foods. My kidneys were badly disordered. My feet were cold most of the time. I was nervous and all run down and it seemed that nothing would do me any good because I tried ever so many medicines but without results."

"My brother told me about Plant Juice and urged me to take it and I'm certainly more than thankful now that I took his advice and began on Plant Juice because it has relieved my troubles. My stomach and kidneys seem to be in the finest condition now. I eat anything I want, enjoy my meals and have gained eight pounds. I haven't an ache or a pain about me now, sleep soundly every night and am so glad to recommend Plant Juice, it proved to be a wonderful medicine and I believe it will help others who suffer as I did because it did more than I claimed for it in my case."

The Plant Juice Man is at Hunter's drug store, 49 Public Square, Lima, where he is daily meeting the local public and introducing and explaining the merits of this remedy. Free samples given.

Plant Juice is sold also in Lima at Hunter's drug store at Main and Wayne streets and at the Argonne drug store, opposite P. O. Office.

## PROTECTION URGED AGAINST RATS

**Threaten Fruit Trees During  
Winter Ridge Says**
**OFFERS MANY METHODS**
**County Farm Agent Gives  
Advice on Problem**

Mice and rabbits are two of the foes of young fruit trees during the winter months, H. J. Ridge, farm agent, said Friday. The tender bark and roots are considered a great delicacy by the animals.

When fresh green food has disappeared from the gardens the mice and rabbits turn their attention to the young fruit trees and if the winter is severe and food is scarce the trees may be killed by their depredations.

Elimination of all dead leaves and grass around the trunks of the trees which might afford a shelter for the animals is a very good protection against mice and rabbits. It will not be very efficient against rabbits, Ridge says.

Wrapping gunny sacks, paper fine fence wire or even upright cornstalks has been tried out with good results by Allen-co farmers. This makes it impossible for the animals to gnaw at the bark of the trees.

### MOUNDING HELPS

Mounding around the trees with dirt or cinders will protect them against mice as the rodents do not like to expose themselves unless it is impossible for them to get food otherwise.

During the rabbit season or even out of season the farmer can shoot the rabbits which are destroying the trees. Other means must be used against the mice, however.

One of the most efficient methods which has been used by farmers calls for the placing of small pieces of sweet potatoes treated with strychnine in wide-mouthed bottles and placing them near the runs.

Other animals will be kept from the poisoned food by this device and if the dropped fruit and other food is removed from the vicinity the mice will eat of the potatoes.

New York orchardists have found that mice will build nests under boards near their runs, Ridge said. If the boards are left for several weeks the mice may be killed by a good dog when the boards are removed.

Farmers who have set out a number of young fruit trees this year should be especially careful in guarding their trees from the onslaughts of the animals, Ridge believes.

## TEXAS TO CHOOSE WOMAN SOLON

DALLAS, Tex., (Special) — Mrs. Edith E. Wilmans of Dallas is picked to be the first woman elected to a lawmaking body in Texas. She received the Democratic nomination in a spirited primary, defeating John E. Davis, who for years has been one of the leading members of the legislature. The nomination is said to insure election.

Mrs. Wilmans has been an attorney for several years. She is married and is the mother of three girls.

Mrs. Wilmans in her campaign promised, if elected, to propose legislation providing for a court of domestic relations, a eugenic bill and the amendment of the compulsory school law in order to assure that all children will have an opportunity at least to get a rudimentary education.

"I expect to devote all of my energies to legislation that will make for the betterment of the schools and the homes," she says.

## DR. SINKS, LEGION DELEGATE

**Thirty From Lima Will Attend  
New Orleans Convention**

Dr. Edward D. Sinks is one of 49 Ohio delegates who are to attend the fourth annual convention of the American Legion in New Orleans, October 16 to 20. In addition 49 alternates are to attend the convention.

Ohio delegates will hold a caucus at the Greenwald, at 8 p. m. Sunday, October 15.

Arrangements have been made to send the post colors and guard from William Paul Gallagher Post No. 96 to the convention. The colors have been carried in the parades at Cleveland and Kansas City.

Lack of finances will prevent the Lima post sending its state champion drum and bugle corps to New Orleans.

About 30 individual members of the post will go to the convention however, along with a number of Legionnaires from the rural districts.

# HARDIN-CO. DRIVE IS LAUNCHED

Donahy Speaks Before 2,000 Democrats at Kenton

SCORES REPUBLICAN WASTE

Charges Ripper Bill Aimed at Political Machine

KENTON—(Special)—Before nearly 2,000 enthusiastic Democrats, the all campaign in Hardin-co was given its send-off in Kenton Thursday night when A. V. Donahy, Democratic candidate for governor, and Forest Smith, defeated in the primaries for nomination as candidate for Attorney General, addressed a mammoth mass meeting in the Armory.

Peculiarly enough the campaigns of both the Democratic and Republican parties were launched in Hardin-co on the same day.

After his introduction by Attorney Roy W. Roof, who acted as chairman, Donahy plunged immediately into a subject which he asserted that his laboring man will tell that his wage is not commensurate with the cost of living.

**TAXES TAX SYSTEM**

He attacked the present tax system in "ment terms, asserting that it is a beautiful theory that all people were honest and all tax-payers economical."

While the last year of the Cox administration cost the state approximately 29 million, Donahy pointed out at the first year of the Davis ripper re-organization plan cost the state over 10 million.

"The real plan of the re-organization bill was not to save the state money, but to build a 'strong political machine,' he declared. 'Davis spent over a million dollars in salaries during his first year, more than Cox in his last year.'

The Republicans broke down the competitive bidding system that he was influential in establishing. Donahy declared and as a result flooded the state with tax that he had purchased for 6 cents. 'That's an example of Republican economy that the state has been made to swallow.'

Donahy pledged himself to lower the tax; abolish all non-essential government; permit no emergency to be declared unless it actually exists; uphold the integrity of the workman's co-operation law; break the stranglehold which some material dealers hold on the state highway department and make this department responsible to the will of the people.

**REPUBLICAN RALLY**

KENTON—(Special)—First big rally of the Republicans in Hardin-co was held Thursday afternoon at Kenton with Theodore Roosevelt, Jr., assistant secretary of the navy; Carmel Thompson, candidate for governor; R. H. Cole, Fundley, candidate for re-election to congress, and Walter Brown of Toledo, firing from the speaker's platform.

Thompson declared that if elected

In Kaiser's Amours

Here are two little brown figures connected with the ex-kaiser's matrimonial plans—above, the grand duchess of Baden, Wilhelm's aunt, who is trying to patch up the scrap in the kaiser's family caused by his marriage plans; below, the young Prince of Schoenau, who sought to marry the Princess Hermine but whom the ex-kaiser "cut-out."

governor of Ohio, he would "attempt to put more business into government and add to the excellent foundation already laid by the present Republican administration thru the re-organization plan."

The Republican candidate declared that thru a business plan, he proposed to have every dollar of the state buy just as much as it would for any individual. In his speech he declared miserly attitude would be assumed.

Roosevelt defended the national government in its policies pursued thru-out two years of administration, saying that it had cut off all unnecessary expenditures, had fulfilled all its pledges of economy and efficiency and had co-ordinated federal departments.

# FT. WAYNE WILL TRY TO KNOT SERIES HERE SATURDAY

## 3,000 ARE EXPECTED

**F**T. WAYNE, Pennsylvania rail road team, champion of the western division, will get its chance here Saturday at Murphy park to tie with Altoona, Pa., western titleholder in a three-game championship series.

Should the leaders win the series will stand at one apiece and the deciding tilt will be held on October 21 in Pittsburgh.

Altoona capped take the first game and the second was an extraordinary tie. Behind Charley Naeff's pitching Ft. Wayne will make a stout bid tomorrow to knot the count.

**IN PRACTICE**  
The teams have been in several days practicing in practice of Murphy park. While there is no purse at stake, the club will be fighting for something more valuable—a handsome bonus—announced by the President of the Pennsylvania railroad.

Games will begin arriving from Altoona Friday. They are due there at 10 and 11 p.m. The first series of games from Ft. Wayne are due to arrive here Saturday at 11:20 a. m. and 12:20 p.m. From the first game, which is scheduled for Sunday, when the game was called after the first inning because of rain, will attract more than 3,000, it is believed.

**LIMAITE IS CANDIDATE**  
Lima will become a death under-stand in the railroad baseball activity when John Pitt, a local employee in the freight department, tries out for the Ft. Wayne team as a catcher.

The game will be called at 2:30 p.m.

**YALE GAME IS DOPELESS**

**BY JACKSON V. SCHOLZ**  
NEW YORK — Old Man Dope has not yet convinced sufficiently from his recent degrading experience at the Polo Grounds to express himself with much force or certainty on the coming football battle between Iowa and Yale.

Having utilized so much first-class information in the world, he is such an unscrupulous manner. The old chap quite naturally hesitates to raise his voice above a moderate whisper in the present instance, even the one of the greatest inter-collegiate games of the season is about to be pulled off under his very nose.

There seems to be so much in favor of each eleven and so many points not in favor of each eleven that the law of averages asserts itself and claims for a tie game. If all the sad forebodings of jumps and bruises, sweeping out from the vicinity of the Yale bowl are well-founded, then Heaven help Yale and if the Hawkeye delegation is as irresistible as their followers claim, then Heaven help Yale anyway.

But on the other hand if the Iowans are badly weakened by the loss of their four last year stars and recent sickness of Heldt, their powerful center, and if they are suffering the further disadvantage of too few practice games under their belt, then things look brighter for the bulldogs who may after all stick their ten veterans into the fracas and unwork a brand of football that they have not displayed so far this season.

## SIX HITS IS LIMIT

No player in the American League succeeded in making six hits in one game last year. The feat of making five hits in a game was accomplished 10 times. Ty Cobb on three occasions made five hits. Gossling, the recent outfielder of the Washington team, turned the trick twice, while Rice, Witt, Baker, Gaudin and Rigney each had one big day.

## ON WHICH BROTHER WILL FORTUNE SMILE?

HOWARD JONES

**T**HE meeting on the gridiron between Yale and Iowa will be more or less of a family affair as far as the coaches are concerned.

Iowa, which won the "Big Ten" football championship in the west last year, is coached by Howard Jones. Yale is looked after by Brother Ted.

The meeting between Yale and Iowa will also offer an opportunity to get an early clue on the strength of the east and west in football.

It is to be regretted that Iowa did not meet Yale last year. The Iowa eleven, led by Aubrey Devine, would have given Yale the battle of its life.

Possibly this year's eleven will make things as interesting, despite the fact that Howard Jones lost four of his star players thru graduation.

Yale in the big games last year showed a team that had much potential strength, but many of the players lacked experience. On form the Yale team of this year should be considerably stronger than the 1921 aggregation.

## CENTRAL FANS WILL GO TO CUBS-SOX SERIES FOSTORIA IN EXCURSION

With Central's backfield playing the kind of game it did last Saturday, even Fostoria may be regarded as having an excellent chance to win the Western Ohio championship for the game Saturday in Fostoria.

The car will leave here about 11:20 a. m. and the rate will be \$2.20. Between 20 and 25 cars are expected to accompany the team to Fostoria. The car will leave here about 11:20 a. m. and the rate will be \$2.20. Between 20 and 25 cars are expected to accompany the team to Fostoria.

## COUNT KNOTTED

**CHICAGO** — The White Sox evened up the series with the Cubs yesterday by taking a pitchers' battle 4 to 3. Each club now has won two games.

The veteran Alexander was opposed by the rookie "Duke" Leverette and more than held his own until the sixth inning, when he began to weaken.

The Sox then started their uphill fight and at the end of the seventh had tied their rivals. Alexander then tightened up and he looked like extra innings, until Hooper uncorked a line drive to right which was good for two bases. Collins then moved Hooper to third and Shedy shot a hot grounder over third base which sent Hooper home with the winning run. Score, White Sox, two and two; Cubs, one and one.

## IOWA IS FAVORED

**NEW HAVEN, Conn.**—The football question at Yale today is "Can Howard H. Jones, the Iowa coach beat his brother, Ted Jones, head coach of the Yale eleven, in football strategy in the bowl on Saturday?" In the brawl, Hawkeye lads seem to have the jump on the bulldog but this interaction is likely to be more or less on brains and generalship.

The Iowa team is looked upon as the favorite here Saturday because of the number of Yale players who are out of the game with injuries. O'Brien and Becker, quarterbacks; Captain Jordan and Bench, half-backs; Blair, end, and Miller, tackle, are not expected to be in Saturday's game. Nordlinger, a halfback, is looked to start the game at quarterback. Kelly is available for a substitute. For backfield Yale has Malloy, Wright, Knapp, Hays, Warner, Scott and Knowles. Plenty of other players are available to fill all gaps, but many of them are uncertain quantities.

Yale's coaches have announced that no special preparations have been made for the Iowa game but that they are counting on developing an eleven which not only will be able to defeat Harvard next month but to produce what has so long been missing from those games—a Yale touchdown.

## MISKE, GIBBONS TO I CLASH TONIGHT

**NEW YORK** — Billy Miske and Tom Gibbons, both of St. Paul, light heavyweights, will meet in a fifteen round bout at Madison Square Garden tonight. The semifinal will bring together Tommy Robinson and Jimmy Darcy, middleweights, in a scheduled 12 round bout.

Heavily and St. Louis played the longest game in the American League last year, battling sixteen innings before the Browns got the decision. In this game Shocker, the star pitcher of the Browns, was put out of the game by the umpire in the 14th inning, and the record book took its place and got credit for the victory.

## Grid Coach First Aid to Injured

DR. BOLES ROSENTHAL

IT'S MIGHTY handy to have a line coach who is also a "bone setter."

The University of California team has an "M. D." with a football hobby on the job.

He's Dr. Boles Rosenthal. Before he won his "M. D." he had taken all sorts of letters as a football star, and the game never quite got out of his blood.

Altho he's a consulting physician at the Oakland hospital, about the time the football season starts he's out in uniform coaching the line.

## M'INNIS TO COACH

"Stubby" McInnis of the Cleveland team wants to take up college coaching after he retires from the big league. Recently it was reported from New Haven that McInnis would be tendered the position as Yale coach. The appointment of Tommers, however, is such a rumor.

## CONNIE AIMS HIGH

Connie Mack hopes to lead the second division in the American League next season. Vastling is pleased to see Mack. He is shooting at fifth place for 1922. Mack is satisfied with three of his infielders. Dykes at third, Galloway at short and Hauser at first. Scheer is able to hit, he will be fixture at second as he is a fielder.

George W. McLaren, head coach, declined to make any prediction regarding the outcome of the contest other than to say that Georgetown would know she had been in a hard game.

# EAST TREMBLES AT INVASION BY WESTERN GRIDDERS

## BULLDOG FIRST

BY JACKSON V. SCHOLZ  
N E W Y O R K. — The gridiron horse d'oeuvre has been duly served and more or less relished, in eastern football circles. The big schools are now awaiting the second course which it is hoped, will consist of some palatable species of fish with many bones. Bones at the time they are to be strictly avoided because a broken tooth or so is a serious handicap when the meat course is served later in the season. All but Yale. Poor Yale. Somebody played a rather unsportsmanlike trick on the wretches of the blue by sneaking a couple of handfuls of pepper into their concomm and the first two swallows were somewhat of a surprise. Not only that, but they are now faced with a man-sized snail in the shape of the Iowa eleven. Its hardly fair when the other members of the big three are only beginning to dine. Harvard will mix things with Bowdoin tomorrow, which will probably be no more than a short workout for the crimson team in preparation for their battle with Centre's Praying Colonels, a week from Saturday. Few of the regulars will perhaps play the whole game tomorrow and unless the invaders show an unexpected kick it is probable that Harvard will turn over the job of entertaining the visitors to the subs.

Princeton is a bit apprehensive over tomorrow's engagement with Colgate. The Colgate eleven under the coaching of Dick Harlow, former Penn State star, may have absorbed a brand of football which may prove very annoying to the Tigris in their present stage of development. Toper put his machine thru a stiff scrimmage Wednesday after suffering up some of the weaknesses that were brought out in the game last Saturday against Virginia, and his regulars looked good as they delivered three touchdowns again, against some opposition from the scrubs.

## Ten-Year Old Boy Crack Golfer

REUBEN G. BUSH JR.

THE generally accepted theory that golf is an old man's game is being constantly shot to pieces. The latest juvenile to make a bid for a place in golf's hall of fame is Reuben G. Bush Jr., of New Orleans. This youngster recently played the first nine holes of the difficult Audubon course in his own way in 37.

The performance of young Bush is said to be one of the best bits of golfing ever done by a boy of his age.

George's father, who is a former southern golf champion, started coaching the lad in the mysteries of golf two years ago.

Bush Sr., considers nine holes of golf enough for the boy to play at one time and refuses to let him play the full 18 holes.

The Bowsher-Webb fight will be staged in the chamber of commerce auditorium and a large assembly of fans is expected to see the battle.

## BETS CALLED OFF

LEXINGTON, Ky. — All betting for the remainder of the Grand Circuit trots here was called off by an official announcement yesterday and the gates were thrown open free to the public. While no statement could be obtained as to the reason for calling all bets off, it is said among racing folk "that inasmuch as the races had been postponed three times all scheduled events could not be run."

## HUNDRED TELEGRAPH POLES TO BE REMOVED, CITY PLANS

Elimination of more than 100 poles scattered throughout the city will be possible as the result of a conference between city officials and representatives of the concerns owning poles in the city.

Owing to the rearrangement which will be necessary before a joint ownership program can be put into effect it will be late in 1933 before the full results of the move are seen.

All telegraph, telephone and electric light and power companies operating in the city are cooperating with the city in its attempt to put as many wires as possible under ground, C. A. Bingham, city manager, says.

By the fall of 1933 all wires in the downtown section of the city should be underground and the nuisances in other parts of the city eliminated by the joint ownership of poles.

## GIRL, 11, ONLY ONE TO OFFER CHEER

BY BILLY EVANS

BABE RUTH was the big disappointment of the world series. The failure of the Yankee slugger to hit has caused him to get a high ranking in the list of "goats."

Last year Ruth was greatly handicapped by an infected arm. He had an ailment for his weak hitting. However, he was confident he would treat the Giant pitchers roughly in the 1922 classic. He "flivvered" badly.

No doubt Ruth took his failure to heart. His face plainly showed his feeling of disappointment, as time after time he tapped weakly to the infield.

However, it is doubtful if Ruth will ever be a first baseman again. In the series as did little Ruth Fix, a pitcher of Buffalo.

Ever since she has been old enough to understand baseball, Babe Ruth has been her hero. For three years, according to her Dad, she has kept Ruth's daily batting average, also the dates of his home runs and the pitcher who opposed him.

... when the Yankees played an exhibition game in Buffalo, little Babe realized a cherished ambition, an introduction to Babe Ruth. "I wrote you a letter some time ago and I haven't heard a single word from you," was the young lady greeted Babe.

Ruth apologized, said he evidently had overlooked her letter in the mass of correspondence that he receives each day.

In order to make good on his promise to write, he autographed a brand new ball for the young lady.

## NET STARS RANKED

NOW that tennis is a thing of the past except for the southern climate the popular custom of winning a berth in the first to is the same to the tennis player as being selected for the all-America by the golden athlete.

It is easy to pick the champion of them all, Bill Tilden. There is no doubt as to his right to rank first. Second place goes to William Johnston without much argument. The other positions are open to dispute. Look over this ranking of the first 10 and select your weapons:

1. William Tilden, N. Y.
2. William M. Johnston, San Francisco.
3. Vincent Richards, Yonkers, N. Y.
4. Richard Norris Williams II, Boston.
5. Robert Kinsey, San Francisco.
6. Zeno Shimizu, New York.
7. Howard Kinsey, San Francisco.
8. Wallace F. Johnson, Philadelphia.
9. Francis T. Hunter, New Rochelle, N. Y.
10. Watson M. Washburn, New York.

CANADIAN CHAMP WINS

## INSIDE DOPE ON HOW LITTLE CENTRE DOWNED HARVARD

BY BO MCILLIN  
FOOTBALL fans were stunned by the 6 to 0 defeat of Harvard by Centre when the wires flashed the score.

The defeat of the great Harvard team by insignificant little Centre was the big upset of the 1931 football season.

I happened to be lucky enough to carry the ball in the play that scored the lone touchdown of the game. I will always carry with me the memory of that play.

"How did Centre manage to defeat the great Harvard eleven?" These two questions have been asked me hundreds of times during the past summer.

If Centre had defeated Harvard in 1931 it would not have been such a great surprise, as many football fans believed we had a chance.

NOT SO ONE-SIDED  
Formerly defeated Centre that year, 31 to 14. The game, however, was not nearly as one-sided as the score would indicate. Only in the final minutes of play did Harvard triumph. The reserve strength of the Crimson was too great.

Having their done on the score of the 1926 game, a majority of football fans expected Harvard to run roughshod over us. The 6 to 0 victory came as a great surprise.

Now for how I scored that famous touchdown, and the dope on how Centre ran over the big thrill.

First—By scoring "Tiny" Thornton, a former University of Pittsburgh star, who is well schooled in the Warner system of football which Centre uses, who is an efficient line coach in every respect, and who was well liked by the boys.

SURPRISE TO HARVARD  
Second—Instead of using an open attack as we had been doing all season, and as we did in the Harvard game in 1926, I resorted to a driving game, always kicking before the fourth down.

This was a great surprise to the Harvard team as they had been coached against our open game.

We only used three forward passes during the entire game in comparison with twenty odd in the battle of 1926.

Third—But most of all do I attribute our victory to the team spirit and co-operation that was lacking in the Harvard game the year before.

It was by this spirit of self-sacrifice in begging to interfere by my teammates that enabled me to make the run that eventually won the game.

GAME'S ONLY SCORE  
The only score of the game happened just after Bartlett made a daring running catch and return of a Harvard punt.

Harvard was penalized 15 yards for piling on, putting the ball in our possession on their 35-yard line. I called time out, gathered the boys around me and said:

"This is the break we have been looking for. If we ever expect to do anything we must do it now!"

Every fellow went back to his position as he was inspired.

Every fellow did exactly what he was supposed to do. I followed Roberts off tackle, reversed my field. Gordy cut down their right halfback and I ran onto a touchdown. Wonderful interference on the part of my teammates made possible the run that beat Harvard.

## HIGHWAY BOOSTED

Booklet Describing M-L-F Way Will be Distributed

More than 100,000 booklets describing scenic points and giving information concerning principal cities located on the M-L-F-Way will be distributed among the 1,700 automobile clubs in the country affiliated with the National Motorists association.

Decision to broadcast information concerning the new route was reached at a meeting of 56 delegates at the Elks Club in Findlay Thursday.

A proposal to change the name of the route was defeated thru the efforts of James I. Heffner and Joe C. Hartline, Lima representatives, who won a battle to retain the name of Lima as part of the trail name.

The route will be marked from Muncie to Fremont before winter. Cities along the route are planning to plant trees as a memorial to soldiers, on Arbor Day. Each tree will be marked with a bronze marker giving the name and regiment of a fallen hero. Hancock is already prepared to proceed with the planting.

## WHY GIRLS LEAVE ANSWERED

Crave for Speed and Thrills, Chicago Judge Says

CHICAGO — (United Press) — "Movies and automobiles are the modern answer to the age-old question—why girls leave home?"

Judge Mary Bartelme of Chicago juvenile court, declared today the speed a fine times, with youth leading the race again raised the proverbial nail in for their mothers.

"Girls of today are hungry for thrills," Judge Bartelme said.

"They crave speed and action—food for their emotions.

"They find it on the movies and the automobiles."

Judge Bartelme's answer was prompted by the wholesale reports to Chicago police from mothers whose daughters mysteriously disappear from home. A great number of girls are being reported missing to the police than ever before.

Search for many high school and working girls, reported missing from Chicago, under mysterious circumstances engaged the efforts of a corps of police and detectives.

Marjorie Davis, 14, was returned to her home today after having been reported missing since Sunday. She was found on a farm near Roselle, Ill., where she was working disguised as a boy.

"She probably seen a movie in which the heroine ran away from home disguised as a boy," said Miss Bartelme.

MUTT AND JEFF—WHEN IT COMES TO BRAIN MATTERS SPIVIS IS THERE LIKE A FLEA—

By BUD FISHER

BRINGING UP FATHER

—BY McMANUS

SHORT SHAVINGS

Don, John, must be a report of a young woman entered and asked for a new time entitled "I Don't Take Flowers." Later, experience has taught us, when to do? and Don, John, asked her to him the time. "What she wanted was, 'Don't Send Me Flowers'."

Charles Kruse, E.H.H., writes on the exciting experience of a neighbor.

The neighbor was awakened from a sound sleep by a noise that sounded as if someone was trying to break into the chicken coop in the back yard.

Only half awake he got out of bed to look thru the window. "He forgot to open the window first," reports the sympathetic Kruse, "and bumping his head against the window pane, smashed the glass."

Bernice Goins, student, 1121 W. North-St., agreed to teach a friend how to play tennis.

"I guess he didn't have a very clear idea of tennis," is the report.

"He showed up at the courts wearing a pair of spiked baseball shoes."

"He said he thought they would keep him from slipping."
